We take responsibility!

LIFETIME Kidsrooms is a Danish brand of the family business M. Schack Engel A/S which was established in 1924. We produce high quality furniture for children where quality, safety, creativity and sustainability are keywords. **Our children are our future.**

At LIFETIME we value good quality and safety. We stand behind our product and offer a 5-year guarantee against manufacturing faults on the construction of our beds. **We are proud of our quality.**

All electricity in our factory and offices comes from windmill production - a natural and sustainable source of energy. Our factory alone is heated up by left over material from our 13,000 m² own production in Denmark. **We support The 17 GLOBAL GOALS.**

We use wood from Northern Europe, where trees grow slow, which secures a high quality material to produce our furniture. In our production we only use eco-friendly water based lacquer for a healthy and safe product. **We care about our world.**

Our beds are tested by TÜV in Germany according to: DIN EN 747-1:2015 - 747-2:2015. With more than 48 years experience and a market worldwide - we are experts in this field. **We care about safety.**

We offer a range of different mattresses and slats, to ensure that your child gets the best sleep. Choose the dream bed, whether it is a castle, a play tower, a practical cabin bed for storage or all of it - the possibilities are many. **We make dreams come true.**

LIFETIME Kidsrooms ® is a registrated trademark

of M. Schack Engel A/S, Denmark.

For the whole catalogue:

Product changes, misprints and errors reserved. Colors may differ from reality.

We design and create furniture which gives children the best environment to play, learn & sleep. We are environment conscious and have a responsible consumption and production. In Denmark windmills create electricity for our whole company. All left over materials from our furniture production we use to heat up the factory.
We care about the environment.

WELCOME TO
LIFETIME...

“LIFETIME has been looking at the world through children’s eyes for more than 48 years. We are proud of our Danish design, production and craftsmanship, where sustainable thinking and high quality ensure safety for your child. We have a shared responsibility for our world and all children
- **because they are our future.**”

4IN1 BED

1.

From 2 years old, it's possible to step in and out of the low bed yourself - this will practice a child's motor skills and independence. The roof makes it feel even more cozy and safe than it already is.

2.

Keep the roof and build the bed a bit up, if you need some space below for a drawer, an extra guest bed or just some storage boxes - the choice is yours.

3.

Do you want to get the bed higher? Then build it into a semi-high bed with a ladder and plenty room for a play mattress, cupboards, cushions or a play curtain for many hours of play and fun.

4.

The basic bed can be simple as it is, but again it's possible to have a drawer, an extra guest bed or storage below. The possibilities are many - in our 4in1 bed.

LIFETIME BY LORENA CANALS

LIFETIME Kidsrooms & Lorena Canals proudly present 2 wonderful and washable collections that suits the LIFETIME bed room perfectly. From the beautiful little PRINCESS to the exciting WILD LIFE.

The Creator of the washable rug concept, Lorena Canals, is dedicated to create safe and functional environments with eco-friendly and handmade rugs and accessories. All made with natural cotton and dyes to ensure durability after washing, comfort and safety for everyday life.

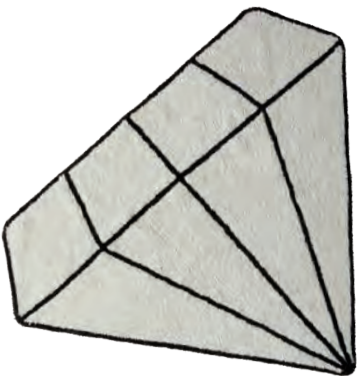

Everything began 20 years ago; when searching for the ideal practical rug, she decided to design the perfect washable rug herself to create an ideal kid-friendly home.

The designer works side by side with 172 artisans who take care of every detail to create unique sustainable art pieces. Lorena Canals owns two factories in India, offices in Barcelona and New York and warehouses in Europe, Asia, and North America.

The brand prides itself on quality in every aspect of production, from the selection of the best raw materials to promote socially responsible labor practices. Their rugs and accessories are available in a wide variety of designs, colors and sizes, making them suitable for any room.

EVERY BED DESERVES
A LIFETIME MATTRESS

Make sure to choose the right mattress. Your child sleeps at least 8 hours a day, so make sure not to compromise on the mattress you choose. Our range of high-quality mattresses provides optimal support for your child's body all night long and throughout the years they are growing.

The height of our mattresses are 12-14 cm and 14-16 cm for pocket spring. This gives the child the support it needs, and is the max. height, making sure that our safety guard is still high enough to comply with the safety standard DIN EN 747-1:2015. Let your child sleep well.

SAFETY FIRST

Our beds are tested by TÜV in Germany according to: DIN EN 747-1:2015 - 747-2:2015. With more than 48 years experience and a market worldwide - we are experts in this field.
We care about safety.
