# This is Us

Firmly rooted by the Danish seaside just north of Copenhagen with the ocean roaring on one side and the forest standing tall on the other side, Oliver Furniture is a company with nature at its very core. "We live here, because nature is in our DNA," says founder and cabinetmaker, Søren Rørbæk. We design all our pieces with durability, longevity and sustainability in mind and our children's furniture is made to follow the seasons of your children's lives. From infant in the crib to toddler and the independent seven-year-old. Oliver Furniture designs are made to grow with your family.

## Wood Collection

# WOOD BABY ROCKER & TODDLER ROCKER

*3 years old*

**041618** Toddler rocker with  
canvas in white

Wood baby rocker, with its beautiful design and delicate expression, is a stylish alternative to the traditional baby bouncer chair. The baby rocker is practical when the baby is little and the tasks many. The baby rocker satisfies the baby's need for movement - like in the womb - as well as accommodating the parent's need for a few minutes 'hands free'. The easy motion powered by the baby's own movement and rhythm, has a calming and stimulating effect, which makes the chair suitable as a base for both entertainment and relaxation. The position of the chair can also be locked, which is optimal when the baby is being fed or for quiet times. As with all baby bouncers, the Wood baby rocker is only intended for shorter periods under parental supervision.

*2 months old*

**041614** Baby rocker with cushion in nature

*7 years old*

**041618** Toddler rocker with  
canvas in white

Wood baby rocker is designed for both baby and parents: for the possibility of briefly dancing to the beat of their own drum.

The Wood baby rocker has a purpose of well-conceived design and functionality with the intention of a long lifespan. When the sweet baby time is over, a slight change of the seat will transform the baby rocker into a lovely toddler rocker for many years to come. Toddlers around 2-7 years can easily read, play, relax and enjoy cosy moments in the toddler rocker. The low weight and the strong design make it easy for the children to move the toddler rocker around the house. For Oliver Furniture, a long lifespan equals better sustainability.

# WOOD CO-SLEEPER

## — A MULTIFUNCTIONAL BABY BED

Wood co-sleeper is a beautifully designed baby bed, which bears both the baby's and the parent's need for being close and snug in the first months. At the same time the design accommodates the practical context of nursing and caring, and it ensures the necessary sleep for both child and parents: by lowering the front side of the bed, it can easily and securely be coupled to the parents' bed. This way the baby experiences the essential closeness during the night, while the parents get optimal sleep conditions because their baby is lying safe and close-by. Wood co-sleeper creates just as safe a base for the baby during the night as it does in the day, where the bed, with both sides up, functions as a cosy cradle. The co-sleeper, which has rubberised wheels, can easily and quietly be wheeled from room to room. With its stylish expression and delicate proportions, the bed beautifully adapts to the existing interior.

The co-sleeper is tested and approved according to the new EN safety standard. In December 2019, the first EN safety standard for co-sleepers was released.

When the baby's need for its own bed occurs after the first 6-9 months, the Wood co-sleeper with its included attachment legs and open front piece easily transforms into a fine little bench. The bench can be adjusted in height and thereby follow the child for many years to come. As with the co-sleeper, the bench can be used in the bedroom as well as the kitchen and living room, in the company of the rest of the family.

With the additional refined small wooden holder in solid oak, the functionality of the Wood co-sleeper is further expanded. The holder, which is easily mounted to the co-sleeper, functions as a natural base for a captivating mobile which can stimulate the baby's senses. The holder can also be used to support the bed canopy which, besides creating a cosy environment, guards against drafts and bright lights. When the co-sleeper is later transformed to a bench, the canopy can create a cosy cave-like atmosphere for the small child with the big imagination.

# OUR PHILOSOPHY

— FURNITURE FOR LIFE

We value the sustainability of good furniture: in the materials, in the making and in the overall lifespan. An Oliver Furniture piece has all the qualities one would expect from Danish design: classic aesthetics with sleek, elegant lines, sturdy construction and is built to pass on to generations to come.

It is important to us that our designs are easily adapted to the growth of your children or re-purposed for your family's needs, putting less pressure on the environment and your wallet.

We do not cater to trends, but to families and our key principle is that quality and good design will last forever.

# PERFECT FOR GROWING CHILDREN AND EXPANDING FAMILIES — FROM BABY TO 9 YEARS

The Wood Mini+ is a curated selection of convertible beds perfect for growing children and expanding families. The Mini+ basic is the ultimate first bed for your child, designed to follow your child's sleeping needs from baby to 9 years. From classic cot bed to junior bed, Mini+ basic can be set in five different bed versions at no extra cost – a bed with a long lifespan.

The Mini+ junior bed, Mini+ low bunk bed and Mini+ low loft bed are all smaller than our regular Wood Collection beds and are ideal for families inhabiting smaller living spaces.

The Mini+ low loft bed is for the young, independent school child, ready to climb into bed after playing in the comfy hangout space underneath the bunk, whereas the Mini+ low bunk bed is great for siblings close in age and at heart. When your child outgrows any kind of Mini+ bed, the sleek and clean design easily converts into a Mini+ junior day bed, perfect for lounging in any cosy corner of your home.

All Mini+ beds can be purchased separately or transformed into another bed in the Mini+ series by purchasing a conversion kit.

041461 Mini+ low bunk bed 68 × 162 cm white/oak, 041359 Dresser 6 drawers white/oak,  
041333 Shelving unit 5 × 1 horizontal with base, 041346 Cushion for shelving unit 5 × 1 nature,  
041344 Leather straps for cushion 2 pcs., 041332 Boxes 2 pcs. white/oak

041425 Mini+ basic 68 × 122/162 cm white/oak

The Mini+ basic is the ultimate first bed for your child, designed to follow your child's sleeping needs from baby to 9 years. From classic cot bed to junior bed, Mini+ basic can be set in five different bed versions at no extra cost – a bed with a long lifespan.

Wood Mini+

## WHEN ONE BECOMES TWO

When families expand and one child becomes two, Mini+ basic can also be supplemented with a Mini+ sibling kit. This kit contains additional parts to build a crib for the youngest and a junior bed for the oldest all at the same time. Whether the children are in one room or separate rooms, the aesthetics of your home will stay intact.

041365 Nursery dresser 6 drawers with large top white/oak

# WOOD DESK & ARMCHAIR

Wood desk is, with its delicate measurements and numerous functions, an easy choice in the child or teenager's room. It also works well in a corner of the living room or kitchen nook. The desk is available in two different heights and can always be made higher or lower with an additional purchase of interchangeable legs. It is equipped with two A4-sized drawers, and a hidden shelf with a spot for laptops, electronics and chargers. The desk's built-in drawing surface, which can be tilted up and adjusted like an artist's easel, makes the desk suitable for both drawing and reading. The popup stationary box with three rooms and a shelf makes for order and overview. The desk's design appeals to small, creative heads who can think out and capture on both paper and screen, their great architectural ideas.

Wood armchair is designed as an ideal complement to Wood desk. It can also, in all its simplicity, stand alone or be combined with the home's general interior. Wood armchair can be adjusted in two heights and is defined by its thorough design and refined detailing. The armchair's rounded back and delicate joints create a visual lightness and an effortless expression, while details like the frame's lightly sloping legs, testify to the high quality of the armchair's craftsmanship. The stable armchair is both simple and mildly nostalgic in its design. The Wood armchair is created as the base for good conversation and concentrated alone-time for both big and small.

# LIVING WITH OLIVER FURNITURE

We hope our furniture will encourage your children to create their imaginary worlds in blanketed forts, whispers tales of bedtime stories and read under the covers; lights off, flashlight on. And for that reason, we deliberately design Oliver Furniture in simple, clean lines because we want them to blend seamlessly into your family life, your home and the

marvellous time that is a childhood. A time that often seems to fly by too fast, and where it is nice to keep a few things the same. With clever constructed craftsmanship and a sustainable lifespan, Oliver Furniture designs are made to stand the test of time, to stay familiar and safe, following your child and family as you grow.

Seaside Collection

# SEASIDE NURSERY DRESSER 6 DRAWERS

The Seaside nursery dresser with 6 drawers beautifully combines function with storage. The 6 spacious drawers provide ample space for nursery essentials – keeping them at hand, so that you never have to turn away from your baby. The nursery top's rounded edges and the generous amount of space makes for a comfortable changing environment – with room for movement and play as well as the important intimate contact between baby and parent.

Its timeless design, high quality craftsmanship and details like the porcelain pulls on the front of the drawers, make the Seaside nursery dresser an evergreen in the children's room. The 6 solid and spacious drawers run effortlessly on high quality rails, and a special soft-close function dampens the closing of the drawers. The classic appearance makes the dresser easy to combine with furniture and objects of other styles.

The Seaside dresser and nursery dresser with 6 drawers can be equipped with 2 additional pull-outs, which can be integrated underneath the top plate: One pull-out has small bars for hanging or placing things, while the other is designed as a holder for the included laundry bag.

Seaside nursery dresser is available with a nursery top with discretely rounded edges, which covers the entire surface of the dresser. When the nursery top is no longer needed, it is easily removed and leaves the dresser to its purpose for many years to come – high quality furniture is an investment for life.

# WOOD COLLECTION

OVERVIEW

## WOOD BABY ROCKER

Wood baby rocker is constructed with a lower frame of white-oiled oak and a cushion made of OEKO-TEX cotton with a natural wool filling. The chair is safety-approved and like the rest of Oliver Furniture's Wood Collection, it is defined by its classic Nordic design language. The rounded details create a visual lightness and effortless expression - just like the chair's simple, soft form is appealing and reassuring for the small child. With its generous measurements and solid stature, the Wood baby rocker forms a safe base which is easy to move around and place where it is needed.

*The baby rocker is tested and approved according to EN 12790:2009.*

*When the sweet baby time is over, a slight change of the seat will transform the baby rocker into a lovely toddler rocker for many years to come. See the toddler rocker on page 73.*

## WOOD CO-SLEEPER

### — A MULTIFUNCTIONAL BABY BED

Wood co-sleeper, which is defined by its Nordic design language, is executed in 100% solid birch and oak. The bed, with its safety-approved design, accommodates a variety of needs: Continuous height adjustment ensures a precise relationship with the parents' bed (bed clearance 44 – 63,5 cm), which, however, the baby cannot roll into. The attractively sculpted sides and the supporting bottom slats ensure optimal ventilation for the baby. This design will ensure the baby, and therefore also the parents, the best possible sleep - all through the night.

041487

Co-sleeper incl. bench conversion 42 x 82 cm, white/oak  
w 49 x l 92 x h 55–74 cm

*Solid birch & oak*

*Bed clearance with 5 cm mattress = 32–51,5 cm*

*Tested and approved according to the new EN safety standard EN 1130:2019. In December 2019, the first EN safety standard for co-sleepers was released.*

*The bench is tested and approved according to EN 17191:2017.*

041488

Holder for bed canopy & mobile, oak  
w 3 x l 45 x h 65 cm

041489

Bed canopy for co-sleeper, white

## WOOD CO-SLEEPER

With both sides up it functions  
as a cosy cradle.

*The holder for the bed canopy and mobile is optional*

With its included shorter legs and  
open front piece it easily transforms  
into a little bench.

*The bench is also available separately*

**A MULTIFUNCTIONAL BABY BED**  
Cradle, co-sleeper, bench - as  
children grow the Wood co-sleeper  
adapts for longer usability.

When the front side of the bed is  
lowered, it can easily and securely  
be coupled to the parents' bed and  
function as a co-sleeper.

# SLOW LIVING SMALL CHANGES

— SUSTAINABLE BY DESIGN

*All beds can be converted into any other bed in the same collection  
or series by purchasing a conversion kit.*

*View all conversion kits on our Converter  
on [oliverfurniture.com](https://oliverfurniture.com)*

Our sustainable design approach makes it possible to add and subtract elements to an existing furniture and extend its lifetime in response to changing needs in the modern family: A few modifications to a bunk bed, and it becomes two single beds; and a junior bed easily transforms into a day bed.

# WOOD MINI+

## FROM BABY TO 9 YEARS

The Wood Mini+ is a curated selection of convertible beds perfect for growing children and expanding families. The Mini+ basic is the ultimate first bed for your child, designed to follow your child's sleeping needs from baby to 9 years. From classic cot bed to junior bed, Mini+ basic can be set in five different bed versions at no extra cost – a bed with a long lifespan.

## OLIVER FURNITURE OEKO-TEX CERTIFIED MATTRESSES

We have made the natural breathability, optimal comfort and long durability of our mattress a priority. The cosy layer of wool in the cover and the highly elastic foam of the mattress, combine breathability and comfort to create an optimal sleeping climate. The choice of quality materials assures our mattresses durability.

Cover: GOTS certified organic herringbone cotton, interwoven with a layer of 100% Oeko-Tex certified European and New Zealand wool. Foam: 100% Oeko-Tex certified high density (38 - 41 kg/m<sup>3</sup>) cold foam from Europe. Care: The removable cover can be machine washed with wool programme (max. 30°). Safety Standards: All our mattresses comply with standard BS 5852: Part 2:1982 and European EN standards (EN 597-1, EN 597-2).

# STAYING SAFE

Safety and health lie at the heart of Oliver Furniture - after all, we are parents ourselves. Our furniture is designed to meet the strict EU norms and must pass various tests at a regular basis. Amongst others, we test for evaporation of toxics on painted and lacquered surfaces and from the wood

and MDF we use in our production. All our furniture complies with the European safety standards and norms. Furthermore, we comply with REACH requirements and Oeko-Tex certification. For more information of health and safety issues please see [oliverfurniture.com](http://oliverfurniture.com)

## OLIVER FURNITURE OEKO-TEX CERTIFIED MATTRESSES

We have made the natural breathability, optimal comfort and long durability of our mattress a priority. The cosy layer of wool in the cover and the highly elastic foam of the mattress, combine breathability and comfort to create an optimal sleeping climate. The choice of quality materials assures our mattresses durability.

Cover: GOTS certified organic herringbone cotton, interwoven with a layer of 100% Oeko-Tex certified European and New Zealand wool. Foam: 100% Oeko-Tex certified high density (38 - 41 kg/m<sup>3</sup>) cold foam from Europe. Care: The removable cover can be machine washed with wool programme (max. 30°). Safety Standards: All our mattresses comply with standard BS 5852: Part 2:1982 and European EN standards (EN 597-1, EN 597-2).
