Firmly rooted by the Danish seaside just north of Copenhagen, with the ocean roaring on one side and the forest standing tall on the other, Oliver Furniture is a company with nature at its very core. “We live here because nature is in our DNA,” says founder and cabinetmaker Søren Rørbæk. We design every piece with durability, longevity and thoughtful use in mind. Our children’s furniture is made to follow the seasons of childhood – from the first days in the crib to the toddler years and the growing independence of a seven-year-old. Oliver Furniture designs are made to grow with your children and adapt to the changing needs of your family.

CAMP

A COLLECTION, DREAMS ARE MADE OF

With equal parts adventure and a fascination with Japanese craftsmanship and aesthetics, Oliver Furniture founder, designer and cabinetmaker Søren Rørbæk, has created a collection of furniture for little ones with big dreams.

The collection brings together two distinctive bed series: Camp Nomad, with its playful canopy design that invites imagination and adventure, and Camp Novel, a timeless and flexible bed designed to grow with the child.

The collection is completed by a selection of complementary furniture, including chairs, stools, tables and a clothes rail, creating a calm and cohesive setting for both playtime and everyday life.

→ 061204 Novel cot bed/bed, 061210 Novel co-sleeper kit (additional parts to Novel cot bed)

CAMP NOVEL COT BED/BED · First, Camp Novel serves as a safe and cosy cot bed, providing a secure place for your little one to sleep. As the child grows and is ready for more freedom, the cot bed can easily be transformed into a spacious 120 × 200 cm bed. No extra parts are needed, nothing goes to waste, and there is no need for additional purchases. The bed simply evolves with the child's needs and grows with them through the years.

Camp Novel is designed with modern family life in mind, offering a gentle transition from cot bed to a spacious bed from around 2–3 years of age. Rather than simply being a junior bed, it provides a large, low and secure sleeping space where a parent can comfortably lie alongside their child. There is room for bedtime stories, morning cuddles and peaceful nights spent close together.

The Camp Nomad canopy bed is, at its heart, a daybed with a frame inspired by the classic canopy bed, inviting endless expressions, imaginative worlds and adventures to unfold. The oak framed bed, with its beautiful craftsmanship, hidden screws and practical drawers underneath, can easily stand alone, but the design really comes into its own with one of the bed canopies created for the bed. With a canopy, the bed becomes a safe haven at night and a space for daydreaming, playtime and adventure during the day.

SMALL
PRECIOUS THINGS

The Camp Collection is complemented by a selection of smaller furniture pieces, crafted from the same honest materials and defined by a timeless design. Chairs, stools, tables and a clothes rail have a light and functional expression, combining solid oak with canvas and simple table tops. Together, they create a calm and cohesive setting that feels equally at home in playtime and everyday life.

We hope our furniture will encourage your children to create their imaginary worlds in blanketed forts, whisper tales of bedtime stories and read under the covers, lights off, flashlight on. For that reason, we deliberately design Oliver Furniture in simple, clean lines because we want them to blend seamlessly into your family life, your home, and the marvellous time of childhood. A time that often seems to fly by too fast and where it is nice to keep a few things the same. With cleverly constructed craftsmanship and a long lifespan, Oliver Furniture designs are made to stand the test of time, stay familiar and safe, following your child and family as you grow.

WOOD

DESIGNED FOR GENERATIONS

The Wood Collection brings together timeless design, thoughtful functionality and carefully considered details, creating a calm and harmonious expression for the modern home.

Characterised by clean lines and soft, rounded shapes, the collection's different bed series are designed to grow and adapt alongside your child and family.

The Wood Collection also includes baby furniture, storage, tables and chairs, as well as a selection of accessories. It is a collection made to be lived with, passed on and cherished for generations.

The Wood co-sleeper supports both the baby's and the parents' need for closeness and comfort during the first months. By lowering the front side, the co-sleeper can be quickly and securely attached to the parents' bed, helping both baby and parents enjoy a restful night's sleep.

With both sides raised, it functions as a cosy cradle. Fitted with rubberised wheels, the co-sleeper can easily be moved from room to room. Once the baby has outgrown the co-sleeper, the included attachment legs and open front piece allow it to be quickly transformed into a charming little bench.

→ 041496 Mini+ cot bed incl. co-sleeper kit, 041491 Mini+ canopy holder for cot bed, 041492 Mini+ cot bed canopy

The Wood Mini+ cot bed with the co-sleeper kit can be securely attached to the parents' bed. Once securely attached, one side can then be lowered for easy access. This thoughtful design makes night-time feeding and comforting easier, while helping parents get a better night's sleep.

Safety-approved and designed with flexibility in mind, the cot bed with co-sleeper kit adapts to a wide range of bed heights. Stepless height adjustment ensures a precise fit with the parents' bed, from a mattress height of 46 cm, while the secure connection helps prevent the baby from rolling into the parents' bed.

The Wood Mini+ is a curated selection of convertible beds that are perfect for children and growing families. The Mini+ bed series is designed to follow your child's sleep needs from babyhood to 9 years. The Mini+ bed series is available in three versions: oak, white and white/oak.

As the family grows and one child becomes two, the Mini+ cot bed incl. junior kit can be supplemented with a Mini+ sibling kit. With the sibling kit, the initial bed can be converted into two individual beds, so you have a cot and a junior bed at the same time. With this, the baby's first bed becomes a long-term investment in the bedroom environment that grows with both the child and family, ensuring flexibility in nursery design.

WHEN EMILIE HAD A LITTLE SISTER

GROWING WITH THE SIBLING KIT

When Mette and Rasmus were expecting little Emilie, they bought a Mini+ cot bed incl. junior kit. They didn't quite know what this "incl. junior kit" meant, but as Emilie grew, it suddenly made perfect sense that the bed could grow with Emilie.

The cot bed became a junior bed, and it turned out that Emilie was soon to be a big sister. So Mette and Rasmus had to invest in another bed - or so they thought. But they quickly realised they could make two beds out of Emilie's initial bed thanks to the Mini+ sibling kit. Emilie got her junior bed, and her little sister Emma got a cot bed made from all the parts they already had, combined with the sibling kit. This way, they didn't have to buy a new bed, just a sibling kit and a mattress.

”We were drawn to the opportunity to expand and change our home as our family evolves through life. The Oliver Furniture bed, so cleverly designed, has followed our daughters from infancy and has adapted and grown with them - a constant companion through the different chapters of their lives.”

WOOD MINI+ COT BED

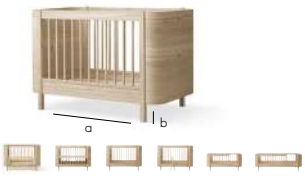

INCL. CO-SLEPPER KIT & JUNIOR KIT

From the very first days of life, the Wood Mini+ bed series creates a safe and flexible place to sleep, designed to grow alongside your child. With the included co-sleeper and junior kit, Mini+ transforms into six different bed configurations – all at no extra cost – delivering remarkable longevity and lasting value.

1. Side-by-Side Sleep 2. First sleep 3. Learn to sleep 4. Shortcut 5. Self-determination 6. Self-dependence

MATTRESSES

BY OLIVER FURNITURE

The choice of quality materials assures our mattresses' natural breathability, optimal comfort, and long durability.

The mattress core is made of European HR cold foam, which is very comfortable, breathable, and hypoallergenic, easily recovers its shape after use and has a high carrying capacity. Volume weight 33-38 kg/m3. The cover is made of organic herringbone cotton, quilted with a layer of recycled polyester. The upper part has a waterproof layer of cotton laminated with TPU film (not applicable to mattress extensions). The removable two-piece cover is machine washable (max. 40°).

All our mattresses comply with standards EN 16890, EN 71-2 and BS 7177.

Our play mattresses are made of cold foam with a cotton cover. The removable cover is machine washable.

OUR PHILOSOPHY

CONVERTIBLE BEDS

We believe in children's furniture crafted with care — from the choice of materials and production to durability and long-lasting use. An Oliver Furniture piece has all the qualities one would expect from Danish design: classic aesthetics with sleek, elegant lines sturdy construction and is built to pass on to generations to come. It is important to us that our designs are easily adapted to the growth of your children or re-purposed for your family's needs, putting less pressure on the environment and your wallet. We do not cater to trends but to families, and our key principle is that quality and good design will last forever.

Our thoughtful design approach makes it possible to add and subtract elements to a piece of existing furniture and extend its lifetime in response to changing needs in the modern family: A few modifications to a bunk bed, and it becomes two single beds and a junior bed easily transforms into a day bed. All beds can be purchased individually or converted by purchasing a conversion kit to another bed within the same bed series.
